ALLIES REFUSE TO HEAR EXPERTS

Deny Hearing to Germans Who Would Testify to Back up Von Simons Counter Proposal

WILL DECIDE ON PENALTY

Allied Leaders Scheduled to Meet at 4 P. M. to Determine Course to be Followed

(By United Press)

Washington, March 1.—The apparent approach of a European crisis today caused republican leaders to hasten their plans for a withdrawal of every national vestige of American participation soon after March 4.

With the French troops moving toward the German border, American troops on the Rhine are to be withdrawn as soon as the Harding administration takes office.

The developments at the London conference have not changed the republican plans to this effect and it was indicated that a movement earlier than heretofore planned, was contemplated.

Plans for bringing about a state of peace between the United States and Germany through the passage of the Knox resolution was being perfected in the senate. The senate will continue in session after March 4, and will not be many days thereafter before the Knox resolution is passed under present plans.

London, March 1.—Allied leaders will meet at 4 p. m. today to consider the penalty to be inflicted on Germany for not meeting the reparation demand, it was officially announced today following the first session with the German delegation.

After foreign Minister Von Simons had outlined informally the German counter proposals the allied leaders refused to hear the experts who were ready to testify as to the sum offered for the reparation demand.

It was officially announced that Von Simons had ignored the allied demands that a 12 percent tax be imposed on German exports for the benefit of the allies and that he had offered a maximum of a billion and a half pounds. Germany offered nominally \$7,290,000,000. The allied demand was for \$55,000,000,000.

Von Simons declared the proposal made at the Paris conference was contradictory, demanding that the production speed up and then stifle international competitors with an export tax. These terms were not acceptable he declared, and urged that the total amount be named. He stated that the German people were ready to make a sacrifice to meet it, if definite instead of indefinite liabilities be named.

After Von Simons' statement

INSISTS ON INQUEST OVER WRECK VICTIMS

Suit in Porter County Superior Court Would Compel Coroner to Conduct Investigation

ACTION BY A CHICAGO MAN

(By United Press)

Laporte, Ind., Mar. 1.—Suit was filed in the superior court of Porter county shortly before noon today against Coroner Seipel, demanding that the court issue a mandate ordering and commanding an immediate inquest over the bodies of those killed in the wreck near Porter Sunday night.

Dr. Clement Briggs of Chicago, through his attorney, Deputy Prosecutor Moore of Michigan City, filed the suit in the Valparaiso court. Judge Crumacker set a hearing for Wednesday morning.

Documents in the suit charge that Coroner Seipel had failed to hold an inquest as provided by law.

YOUNG FARMER DIES FOLLOWING OPERATION

Frank B. Jessup, 34 Farmer of Center Township, Dies of a Bursted Appendix

LEAVES WIFE AND SON

Frank B. Jessup, a young farmer living near the Center neighborhood, died this morning about six o'clock at the Dr. Sexton hospital following an emergency operation last week for a bursted appendix. The deceased was 34 years of age at the time of his death.

The deceased was the son of Mr. and Mrs. Macajah Jessup who survive and live in Carthage. A widow and one son Paul W., also survive, and six brother and one sister.

The brothers are Allen, John, Fred, Ben, and Henry all of this county and Harry of Florida, and Mrs. Della Pierson also of this county. Mr. Jessup was taken seriously ill last Thursday and was brought to the local hospital in the night time, when the operation was burst, and his condition was critical.

BILL PUTS RUSH IN SEVENTH CLASS

Commissioners of Different Counties Are Divided Into Classes With Increased Pay

\$500 FOR RUSH COUNTY

This Bill is One Before The House Which is to be Acted Upon Before Adjournment

Indianapolis, Ind., Mar. 1.—One important house bill still to receive senate action is the Anderson bill dividing Indiana counties into separate classes and fixing salaries of county commissioners according to the classes.

The various counties of the state were divided into ten groups, the following factors being considered in the division: population 45 percent, taxes assessed 30 percent area of county 5 percent and number of miles of free gravel road 20 percent.

Marion county alone would fall in class one with a salary of \$4,000, Lake county would be the only one in class two with a salary of \$3,200. Class three would be comprised of Allen, St. Joseph, Vigo and Vanderburgh counties with a salary of \$2,200.

These counties would be in the following classes: Class 4, Delaware and Laporte, \$1,250; class 5, Knox, Clinton, Henry and Montgomery, \$1,000; class 6, Putnam, Huntington, Noble, Wabash, Wells and Jackson, \$750; class 7, Shelby, Gibson, Bartholomew, Clay, Vermillion, Adams, Jay, Daviess, Rush, Kosciusko, Fountain, Morgan, DeKalb, \$600; class 8, Blackford, Dubois and Whitley, \$500.

The commissioners will have to furnish bond, in the following amounts:

Class 1, \$25,000; class 2, \$20,000; class 3, \$18,000; class 4, \$15,000; class 5, \$12,000; class 6, \$7,500; class 7, \$6,000; class 8, \$5,000; class 9, \$4,000; class 10, \$3,000.

DR. PARSONS IS STRICKEN

Rushville Physician is in Critical Condition Following Stroke

Dr. Charles H. Parsons, a well known physician of this city, suffered a stroke of apoplexy this morning about eight o'clock while at his residence, 410 North Main Street, and his condition was reported to be very grave, with little hopes maintained for his recovery. Dr. Parsons was rendered unconscious and never regained consciousness throughout the day. His sister, Mrs. Parrish of Indianapolis and sister-in-law Mrs. Ruby Frazier of Xenia, O., were called to his bedside today. Dr. Parsons arose this morning in seemingly good health and was stricken very suddenly.

SMALLPOX DELAYS ALYEA CASE TODAY

Defendant in Conspiracy Case Gets Continuance Because Witness is Quarantined

SET FOR APRIL SIXTH NOW

Attorneys Say They Didn't Know Know About Witness Yesterday—Expense on the County

The defendant, Gregg Alyea, charged with conspiracy to commit a felony, who was scheduled to go on trial this morning in the circuit court, again received a continuance until April 6, when he filed a motion with the court showing that one of main witnesses was quarantined at his home in Greensburg on account of small pox.

The case was set for trial yesterday when the defendant attempted to seek a delay by filing several motions with the court, one being to quash the second count to the amended complaint, and another motion being filed to discharge the defendant, each of which was overruled by Judge Fred Gause of Newcastle, special judge hearing the case.

After the court was occupied all day yesterday in hearing arguments by the attorneys on the two motions, it was then intimated that the motion to discharge the defendant would be overruled. His grounds for seeking to be discharged were based upon the alleged fact that the case had never been set for trial during the terms of court, which automatically would compel the case to be dropped.

The state, however, attempted to prove that the defendant had caused several motions to be filed that would cause a delay in the scheduling of the case for trial, and after hearing most of the evidence yesterday on the motions, Judge Gause ordered a special venire of 30 names drawn for jury service today.

The jury reported this morning, as well as 30 or 40 witnesses, most of whom were from Greensburg, and when court opened the defendant filed a motion for a continuance, setting forth the fact that Charles W. Beeson, a witness for the defendant, was under quarantine. The motion was accompanied by a physician's certificate.

The motion filed for a continuance was quite lengthy, setting out in just what manner the witness would testify. Mr. Beeson was formerly sheriff of Decatur county and was acting in that position when the Demaree gang was arrested.

CAMPAIGN FOR ALLIED MEETING TO ORGANIZE RELIEF FUND CLOSED A KIWANIS CLUB HERE

Robert E. Mansfield Receives Word Today Not to Accept Any Further Contributions

TOTAL HERE OVER \$2,000

Word was received today by Robert E. Mansfield, that the campaign which has been in charge of the allied relief council, to raise funds for the starving children of Europe until the next harvest, has been closed and that no more contributions should be made for this purpose.

Mr. Mansfield, who made a personal canvass without the assistance of anyone, excepting the publicity given in the newspapers, succeeded in raising \$682, and this, in addition to contributions by the churches, the Rush county chapter of the Red Cross and individuals through other agencies, brought Rush county's total gift for this purpose well over \$2,000.

Mr. Mansfield today sent in \$30 which has just been received and brought his collections up to \$682. Ten dollars came from James Lock and children, Mildred and Robert, of Coden, Alabama, formerly of this city; \$10 from Mrs. Elizabeth Pattison Schriebe and \$10 from another person who desired their name not be made public.

URGES EQUALITY FOR TWO RACES

Dr. Yutaka Minakuchi Thinks This is Solution of The So-Called Japanese Problems

SPEAKS AT GRAHAM ANNEX

Native Japanese Tells of Plans Which Have Been Formulated to Americanize Jap Immigrant

Dr. Yutaka Minakuchi, who is regarded as the ablest representative of the Christian Japanese in America, spoke to a very small audience, numbering very little more than twenty-five at the Graham Annex auditorium Monday night. The attendance would have been much larger, doubtless, but for the fact that the lecture, which was one of the regular number of the American Legion lyceum course, was not announced until Monday evening.

Dr. Minakuchi's solution for the so-called Japanese problem was the Americanization of the Japanese people coming to this country. He told what had been accomplished on the western coast in the way of Americanizing people of his race.

Dr. Minakuchi discussed relations between this country and Japan and deplored the fact that the question of war between the two countries had ever been discussed. He scored yellow journalism for this situation and declared that the Japanese people has nothing but the kindest feelings for the United States.

The lecturer asserted that the people of this country need fear no war with Japan because the Japanese people do not want war and the Japanese government is not able to finance a war.

Relating to the dispute between China and Japan over the rich Chinese province, Shantung, which had such an important place in the Versailles peace conference, Dr. Minakuchi asserted that Shantung will be more loss than gain to Japan because Japan and China are literally tied together in a bundle and what harms one will injure the other.

The speaker said that the people of Japan and the leaders of the government regard America as their first, longest, strongest and best friends, and whatever may be the attitude of other governments, they can always depend upon the United States to do the right thing.

Dr. Minakuchi held a brief for the equality of the white and yellow races, declaring that if the Oriental immigrant were placed on the same footing as an American he would much sooner become Americanized.

As a proper and practical solution

TEN WEEKS' ILLNESS FATAL TO W. J. HIGGS

Well Known Resident Here For 20 Years Dies This Morning From Hardening of Arteries

A FORMER CITY EMPLOYEE

William J. Higgs, age 67 years, died this morning at 9:15 at the family residence, 621 West Fifth street, death being due to hardening of the arteries. Mr. Higgs was first taken ill about ten weeks ago with pneumonia, and the complications arose which caused his death. The deceased was born in Franklin county and for a number of years was a resident of Greensburg, and for the past twenty years had lived in Rushville. For a great many years he was employed at the Park Furniture factory and for a time was a member of the fire department. He was a member of the Odd Fellows lodge.

The deceased is survived by a widow, two children, Mrs. Dan Honley and Elgar I. Higgs of this city, O. P. Higgs of Connersville, T. J. Higgs of Kokomo, brothers, and one sister, Mrs. Edward Jamison, of Cochran, Ind.

CHILD'S FRIEND BILL IS PASSED

Senate Accepts Minority Report Recommending Passage of Measure Regarding Rentals

MISDEMEANOR FOR OWNERS

House Calls on Congress to Pass Soldiers' Bonus Bill—Boost in Dog Tax Denied

(By United Press)

Indianapolis, Ind., Mar. 1.—After a spirited debate, the state senate today accepted a minority committee report recommending passage of the bill which would make it a misdemeanor for landlords to refuse to rent property to families because they have children.

A majority committee report on Judiciary A favored indefinite postponement. Senators Nejd and Alldredge signed the minority report. Senator Nejd speaking in behalf of his report, declared that the conditions in the Calumet field region demanded immediate attention.

The house of representatives voted 82 to 2 in favor of a concurrent resolution introduced by Representative Sherwood which called upon congress to pass the soldiers bonus bill now pending before the national senate.

When Representative Bedgood opposed the resolution on the ground that he did not know the contents of the bill, Representative Jinnett of Rush county, declared, "You would not have put up that argument during the war."

Conferees of the house and senate agreed to the restoration of the proposed vocational tax levy to 1 cents, the house figure before the senate changed it to 3 cents. Finally the senate conferees conceded to the house conferees that 60 percent derived from the tax shall be used for agricultural and home economics education.

The house refused to concur in the senate amendment to the dog tax which boosted the proposed tax from \$1 to \$3.00.

Senator Hogston's bill providing that every town of 15,000 population or less shall maintain a two platoon fire department, passed to third reading in the house after Representative Smith had made unsuccessful efforts to amend it so as not to include Princeton.

The senate passed the bill providing that county commissioners shall appoint a public health nurse in case that three fourths of the voters are in favor of it. The bill was passed under suspensions of the rule 31 to 5 and now goes to the house for further action.

SEASON TICKETS ARE SELLING FAST

Demand For Sectional Tournament Here Saturday Indicates Immense Crowd Will Attend

TEAMS ARE ALL ASSIGNED

School Authorities Will Have No Trouble Caring For Visitors As Last Year

* HERE'S THE OLD SPIRIT *

"The New Salem basketball team seems to be having their share of misfortune this season," writes a basketball fan from that place. "Having been deserted by the captain of the team a few weeks ago, these plucky little fellows have gone ahead. They are now facing the Rushville team in the tournament Friday and although two of the star players are ill with scarlet fever, these boys are ready and willing to play although they know they stand no chance for the Rushville boys are giants by the side of the New Salem team. A school should take pride in boys who take for their slogan, 'Try'."

The season tickets for the sectional basketball tournament which will be held here Friday and Saturday, are being sold out fast, according to the word from those in charge of the advance sale. Persons living in all parts of the county have purchased tickets and a supply has been sent to each of the out-of-town schools.

It was pointed out yesterday that a limit should be placed on the tickets to prevent any scalping by speculators. At Franklin each person is entitled only to two tickets. Yesterday one person bought 22 tickets here, and if the tickets would be placed in the hands of a few people, the last minute buyers would be confronted by scalpers, who would demand almost any price.

Last year when 21 teams were sent here, housing conditions were inadequate, but Rushville people gladly responded and opened up their homes for the visitors. This year, with 16 teams entered, the

REPUTATION OF ABLE BOY FULLY CLEARED

Green County, (O.) Prosecutor Finds Not Robbery Was Being Attempted at Osborn, O.

OTHER TWO BOYS ARE FREED

Robert Abel, formerly of this city, son of Mrs. Nina Abel Lewis of Indianapolis, who died as the result of being shot by the town marshal of Osborn, Ohio, on the night of Dec. 30, 1920, was not guilty of any attempt to rob a hardware store, as was charged by the officials, according to evidence gathered by Prosecutor J. K. Williamson of Green county, Ohio.

For the reputation of the other two boys involved, Orlo Holden and Charles Chastain, as well as that of the former Rushville boy who was fatally injured, the prosecutor investigated and has cleared the boys of any implication that they were planning a holdup or robbery.

The marshal saw the boys enter the dark alley behind the hardware store, according to the prosecutor, and followed them with a flashlight in his hand. He could only make out one boy and while shaking him was called upon to throw up his hands. At the same time he was fired upon. The marshal returned the fire wounding Abel and Holden. Holden and Chastain were indicted on shooting with intent to wound, but upon proof of their previous good character and because of their youth, an indictment was returned later against Holden for carrying concealed weapons, to which he pleaded guilty. The other charges were nolle.

RICHLAND FARMERS PLAN GOOD PROGRAM

Regular Meeting Friday Night Will
Include Address by Frank Beall
of Clarksburg

REPORT ON PIG CLUB PLAN

The regular meeting of the Richland township Farmers' Association will be held at the Butler School on Friday night and it is expected that one of the most interesting programs of the year will be given at this meeting and all members and others who are interested are invited and urged to come and bring their friends and families.

A boys' and girls' pig club project was started at the last meeting and the committee in charge expects to make a definite report at this time and get the work under way, provided there are enough boys and girls interested to make such a club worth while. All boys and girls of Richland Township who are interested are especially urged to come and get acquainted with the pig club

are especially urged to come and get acquainted with the pig club work. The feature of the meeting will be a talk by Frank Beall of Clarksburg who will speak on "Experiences in South America". Mr. Beall spoke on this subject at the New Salem Farmers' Institute and his talk was voted by all present to be very entertaining and instructive. Mr. Beall took a consignment of Polled Shorthorn cattle from northern Indiana to South America two years ago, leaving here in May and returning the following November. While in South America he spent considerable time on the farms and cattle ranches and had a good opportunity to learn at first hand some of the farming and industrial conditions of that country. On account of shortage of seats all members who have not contributed their chairs are requested to bring them to this meeting. It was pointed out that any member had a chair around his home that could be donated to the assembly.

A British government committee has recommended the production of synthetic nitrogen under government patronage.

TO PROVIDE FOOD FOR IRISH PEOPLE

Mark Purcell is Named Rush County
Chairman For Campaign to be
Conducted in Indiana

WILL LAST ONLY TEN DAYS

Aim is to Provide Not Only Food
But Clothing For Starving Women
and Children of Ireland

Indianapolis, Ind., Mar. 1.—Mark Purcell, of Rushville, has been named chairman of Rush county, for the campaign to be conducted throughout the state to obtain money with which to provide food and clothing for the thousands of starving women and children in Ireland, it was announced today by P. C. Reilly chairman of the State Executive Committee for relief in Ireland. The campaign will be carried out over a ten day period during March, the exact dates to be fixed by the American Committee for Relief in Ireland of which Morgan J. O'Brien of New York is chairman.

Notice of Mr. Purcell's acceptance was received by Mr. Reilly today. Mr. Purcell will be in complete charge of the campaign in the above county and will select chairmen for each of the towns in the county, including Rushville. An executive committee for the county campaign also will probably be named by Mr. Purcell. Efforts will be made to raise a total of \$350,000 in the state and county quotas will be assigned within the next week or ten days. Mr. Reilly has sent a letter to Mr. Purcell, part of which reads as follows:

"In all your endeavors, please keep this thought in mind and impart it to your workers, that this movement for the relief of Irish sufferers is strictly a humanitarian one and is not associated or affiliated in any way whatsoever with any sectarian or political body. It is the wish of the National Executive Committee that the political aspect of the situation be not discussed. According to reports being received by the National committee from Ireland prompt action is most necessary if thousands of women and children are to be saved from starvation. Because of recent events there is widespread suffering and distress in Ireland and it is pointed out, no matter what the rights or wrongs of Ireland's cause, there is no denying the fact that these thousands of women and children are sorely in need of food and clothing."

Alva Webb, who suffered a stroke of paralysis Sunday morning at his home southwest of the city, was reported not so well this morning, and his condition is regarded as critical.

SEES STRENGTH IN CLEAN MOVIE BILL

Legislative Council of Indiana Women
Believes Passage by Legislature
is Assured

MAKESHIFTS ARE CONDEMNED

Arguments For Regulation are Taken
From Silver Screen Itself,
Statement Points Out

Indianapolis Ind., Mar. 1.—Clean movies for Indiana people, a vital need, and a thing "generally demanded by the people", as the Indianapolis Star points out editorially, is one of the large results now apparently assured at the 1921 session of the Indiana Legislature.

With the final agreement of all elements on the form and substance of the clean movie bill, it develops that the movement to make sure of clean movies for all the people commands the quiet support of a large majority of the lawmakers, and is assured of backing in quarters where the final word ordinarily is spoken for or against legislation.

In a statement issued today the legislative Council of Indiana Women points out some of the reasons for the strength displayed at this time by the clean movie bill. The statement follows:—

"The demand for a clean movie law for Indiana confronted the Legislative Council of Indiana Women from the first hour of the Council's activities at the present session. From more than two hundred parent-teachers associations in all the counties; from educators everywhere, from churches, from the bench, from individuals all over the state, and from civic and social service organizations, farmers institutes, clubs of all kinds, we have received definite calls for clean movie legislation which will get results for all the people and actually protect the children of Indiana against flagrant evils now existing.

"Makeshifts suggested by sincere and well-meaning civic bodies which lack authority or power to bring about a cleanup have proved through their own failure and inadequacy the real need for a commission which will enforce penalties and put the public demand for clean movies into actual effect. Some of the most urgent demands for legislation come from the cities where a so-called 'cleanup' is supposed to have been effected by private citizens acting as 'indorsers' for films.

"We find that the far reaching influence of the movies has had the effect of impressing all citizens with the need for betterment in pictures offered the public in Indiana, and we find also that practically all disinterested citizens, including the lawmakers, have been convinced by their own experience that regulation by law and supervision by the state are absolutely required. In this fact is the potential strength of the clean movie bill. There are very few legislators who have not encountered for themselves the evils which are to be corrected under the legislation now proposed. Our arguments are taken from the silver screen itself, and from the hundreds of movie houses where objectionable films continue to run without any sort of supervision or regulation.

"In order to regulate the movie which is here today and gone tomorrow, it is necessary to enforce regulation in advance of showing the film. Clean movie laws are being strengthened where they now exist. Seventeen states now are seeking to protect their people by enacting such legislation.

"It is said that there are as many

movie houses in the country as there are schools. More than 100,000,000 people see the pictures every month in the United States. Clean movies is a public question of first importance.

"Indiana faces a real problem. Indiana people demand real regulation and authority supervision of the films offered in the state. Society first of all must protect its own. The movies are open 42 hours per week, 52 weeks of the year. The schools are in session but 30 hours a week for only 40 weeks of the year. It is up to the State to do away with the demoralizing influences now prevalent on the screen, and to co-operate authoritatively with the movie producers to realize the utmost in an educational way and for clean amusement from the movie theatre, an established institution which has become so important a factor in modern life.

"The State, through a commission for adequate supervision, under a self sustaining system of fair fees to be paid by the film owner or lessee, will relieve those volunteer workers who have given so much time and effort in the last six years to a necessarily limited field in the city of Indianapolis, where, it may be said, a measure of good has been done in perhaps five of the leading moving picture houses. State super-

vision will reach effectively some sixty additional Indianapolis movie theatres, and some 300 additional houses throughout the state. The need or comprehensive cleanliness is apparent to all.

"It is gratifying to note that representative citizens from all parts of the state are rallying in numbers to assist the clean movie bill which now is pending and which, with proper show of public interest and active popular support will be enacted into law."

"Diamond Dyes" Tell You How

A Child can Follow Directions
and get Perfect Results

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods. Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has color card.

Many a Pretty Face Spoiled by Pimples

Not only are these pimples and blotches disfiguring, but they lead to serious skin diseases that spread and cause the most discomforting irritation and pain. Sometimes they foretell Eczema, boils, blisters, scaly eruptions and other annoyances that burn like flames of fire, and make you feel that your skin is ablaze.

If you are afflicted with this form of skin disease do not expect

to be cured by lotions, ointments, salves and other local remedies, as they can not possibly reach the source of the trouble, which is in the blood. Begin taking S.S.S. today, and write a complete history of your case to our chief medical adviser who will give you special instructions, without charge. Write at once to Medical Director, 152 Swift Laboratory, Atlanta, Ga.

Spring Time Is Chick Time

How are you going to start the chickens? Well started means half raised—try the Full-O-Pep or Blatchford way. Avoid feeding grain to make growth. You can not grow them big without the Mash—We know.

Full-O-Pep Growing Mash.....\$3.75 per 100 lbs.

the following described property, consisting of the dissolution sale property of E. L. Aiken and Harrison Crouch, also the disposal of F. W. Lightfoot's Jersey cattle:

11 Head of Horses and Mules 11

One black horse coming 4 years old. One black mare coming 4 years old. One 4-year-old bay gelding. One 4-year-old sorrel mare. One 4-year-old bay mare. One general purpose mare 12 years old. One pair of mules 12 years old, weight 2400. One pair of mules 8 and 12 years old, weight 2500. One gray mule 5 years old. All of these horses and mules are sound and good workers.

19 Head of Cattle 19

One registered Jersey cow to be fresh March 14. One 4-year-old Jersey cow to be fresh March 15. One Jersey cow 5 years old with calf by side, giving 4 gallons of milk per day. One Jersey cow with calf by side. One Jersey cow giving good flow of milk. One 4-year-old Jersey cow giving 4 gallons of milk per day. Two 3-year-old Jersey cows each giving 3 gallons of milk per day. One Holstein cow giving 3 gallons of milk per day. One Shorthorn heifer due to calve May 2. One heifer bred Sept. 1. Three Jersey heifers 8 months old. Two Jersey heifer calves. Two Jersey bull calves 8 months old, one eligible to register. These Jerseys are as good a bred bunch as you will find anywhere in the country.

82 Head of Hogs 82

Consisting of 50 head of feeding shoats, averaging 100 pounds, and 20 head averaging about 70 pounds; 12 brood sows. All these hogs are double immuned.

About 200 Bushels White Seed Oats

FARMING TOOLS—Two Black Hawk corn planters, breaking plow, three 2-horse cultivators; one 2-row cultivator, roller, steel hay rake, farm wagon, and gravel bed, 1-horse wheat drill, Corn King manure spreader, 2 sets of work harness.

This is the
Stove Polish
YOU
Should Use

IT'S different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask in trial—Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Treat on Black Silk Stove Polish.

Made in liquid or paste—one quality.

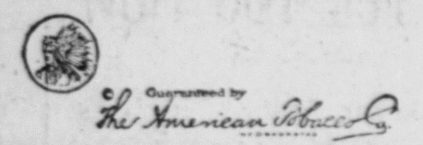

Black Silk Stove Polish Works
Sterling, Illinois

Use Black Silk Air-Drying Enamel on grades, registers, stove-pipes—Prevents rusting. Use Black Silk Metal Polish for silver, nickel or brass. It has no equal for use on automobiles.

—Joseph D. Outland and son Loyd have returned to their home in Richmond after spending the week-end with their son and wife, Mr. and Mrs. E. L. Outland of Orange.

SCHOOL PLAY IS SUCCESS

Homer Students Present "The Blue Bird" at Manilla Auditorium

The Homer school presented "The Bluebird", dramatized from George Le Blanc's "The Children's Bluebird" to a very large and appreciative audience at the Manilla school building auditorium on Saturday night. The auditorium was filled to its capacity and the play was a success the music being furnished by Hill's orchestra of Shelbyville. The entire school had a part in the play and all did their part so well that to single anyone out by special mention, would be injustice to others.

The costumes and stage settings were designed by Miss Mary Parrish, fifth and sixth grade teacher, who also directed the play.

First Girl Page in House

Indianapolis, Ind., March 1.—The state house of representatives has a girl page for the first time in history.

She is Josephine Dilts, 12 years old, of Angola, Stueben county, whose appearance in the house was brought about by the influence of Representative Willis of that county a member of the patronage committee.

Miss Dilts will serve as page during the few remaining days of the session.

LEAGUE TO PLAN BETTER TRANITS

Transit Conference to Devise Some Method Whereby World May Run on Well-Oiled Wheels

TO TAKE PLACE IN BARCELONA

An Invitation to Attend the Meeting Has Been Extended to U. S. and Other Governments

Geneva (By mail to United Press) —The next duty of the League of Nations will be to help the world "get a move on."

When the League of Nations International Conference on Transit takes place in Barcelona, on March 10, it will be attended by specially selected delegates of all the recognized governments, who will have at their finger tips details and statistics as to the conditions of their country's rolling stock the amount of traffic, the increase in rates by rail and sea, for travellers as well as goods; the consumption of fuel; the general condition of railway systems and waterways; the development of motor and aerial transport, and, in fact, every scrap of information that will help the League to devise some method whereby the world may run on well-oiled wheels.

Commerce in all countries is suffering badly on account of the reduction, deterioration and dislocation of all means of transport which is hampering the movement of goods and which is largely responsible for the present economic crisis. Material essential for national existence is being badly distributed and the whole great scheme of imports and exports is thereby affected.

The first talk of the Barcelona Conference will be to take a comprehensive survey of the present position and then all the great transport experts of the world will lend their knowledge and their brains to the matter of improvements.

The Barcelona Conference will do in the realm of transportation what the Brussels Conference did in the realm of finance. It will endeavor to find a more satisfactory system for the distribution of available material, and a more rational employment of existing routes of communication.

An invitation to attend has been extended to the United States of America, and other recognized governments have been informed with regard to the preparatory work of the Conference, of which the chairman will be Monsieur Gabriel Hanotaux, formerly Minister of Foreign Affairs in France.

HARDINGS ARE BACK IN OLD HOME TOWN

President-Elect and Mrs. Harding to Spend Few Hours Before Inauguration at Marion

TO OFFER POST TO GEN. WOOD

(By United Press) Marion, Ohio, Mar. 1.—President-elect and Mrs. Warren G. Harding were back in the old home town to spend a few hours today before starting to Washington. The president-elect arrived here shortly after 4 a. m. but the train was parked in the yard until the party was ready to get up.

After their presence was made known, the town folks went down to the station to welcome them, although the big demonstration is not planned until tomorrow noon.

The went to the old house of the president-elect's father and will remain their tonight, as their own home has been emptied. Although most of the day will be spent among old friends, Harding has an important conference with Leonard Wood, scheduled for today. Wood will be asked to resign from the army and become governor-general of the Philippines. Whether he will accept is a doubt as he has been asked to become head of the University of Pennsylvania at a salary larger than the Philippine pays. Harding, it is understood, will urge Wood to accept the governor-generalship as a patriotic duty, believing that the situation is in need of a man of Wood's experience.

MASONIC DEGREE WORK

Phoenix Lodge No. 62 F. & A. M. will confer the F. C. degree upon five candidates Tuesday evening beginning at 7:30. A good attendance is desired.

"-and Remember to See These Wonderful Showing of Spring Tissues"

See Our Windows

Enthusiastically reminded one woman to another yesterday in front of our store—the one going in and the other having just made a complete tour of the store.

Aside from being most fashionable, Silk Tissues are BEAUTIFUL in their striking, unique, soft and blending color combinations—offering widest choice.

We invite you to come and make a thorough inspection of these new tissues while the assortment is large and complete.

On inspection you will find this store with the most complete showing of tissues, voiles, ginghams and all spring materials in Rush County.

WE ARE ALWAYS PLEASED TO SHOW YOU.

Last Time For "The Cheater"

May Allison in "The Cheater," a picturization of Henry Arthur Jones powerful drama of the same name, will be seen for the last time at the Princess theater, in addition to the Burton Holmes travels picture. Eugene O'Brien comes Wednesday in "Worlds Apart" and Pathe News and a magazine reel will be shown. Lionel Barrymore in "The Copperhead," a special feature, comes Thursday and Friday.

A Play of Contrasts

A play of contrasts in "Life's Twist," the Robertson-Cole special starring Bessie Barriscale, which opened at the Mystic Theatre last night and will head the bill at that popular playhouse today. The picture is one in which are blended in an amazingly artistic manner the lives of "Tina" one of the "other half" and "Muriel" one of the "four hundred."

Tina, with fiery temper, frail body, who longs for things beautiful and good, and whose heart is big enough to love anyone and everything, is a toiler in a sweat shop. Muriel, beautiful, poised, gracefully groomed, is a product of all that wealth and culture can give. But Nature in her irony had given to the daughter of toil a face and form strikingly like the daughter of wealth, and because of this Fate places Tina for a short time in Muriel's world.

Miss Barriscale, who is known as one of the most versatile actresses on the screen plays the dual role of Tina and Muriel, and gives one of the most remarkable performances of her career. Her interpretation of Tina, the little slum girl who is lifted from her squalid environment and placed in an atmosphere of wealth, and Muriel the beautiful society girl who learns on her wedding night that her husband married her for her money, leaves nothing to be desired in artistic acting.

Neglect Keeps Doctors Busy

An eminent physician once said: "Were it not for people who neglect the early symptoms of disease, many doctors would have to find a new way to make a living."

Every winter doctors are busy calling on gripe and pneumonia patients because the first symptoms of colds were neglected.

Watch out for a cold this year. At the first sneeze and snuffle take Lightning Laxative Quinine Tablets. You'll stop the cold and feel like a new person in 24 hours. Never gripe or sicken. Drug-rists guarantee them.—25c a box.

Everybody's Day

Clean up—look up—stay up!
It is only a matter of a few weeks when spring cleaning will be with us again.

Let's be ready for it, improve upon the work of past years, and make Rushville a place of beauty.

Let's make it everybody's day.
If everybody leaves it for somebody else to do nothing will be except in a perfunctory manner, but if we all "go to it" with a determination to excel it will only require a small amount of work on the part of each individual.

The logical way to do a thing is to pitch right in and stick to it until it is done, and then hold it there—don't allow any slipping or sliding back to the old level.

Mediocre results may be good enough for some localities, but they are not satisfactory to the people of this city. We want something better, something out of the ordinary, quite in keeping with the thrift and intelligence of our community.

Why can't we have a general spring cleanup day, when every citizen will get out and put on the polish—remove the debris from certain streets, clean up back alleys and unused thoroughfares, and place the stamp of cleanliness, sanitation and beauty upon the whole community?

No one objects to closing the business houses for a day in order to hold a community picnic or other celebration. That is a common occurrence all over the country, and everybody has a gala time.

But who ever heard of a town closing up business in order to take a municipal bath?

It's a good move for Rushville to inaugurate.

We're for a cleanup holiday, with everybody in action.

How This World Delights in Bunk!

"The term 'bulk good' to the retail trade is fast becoming a memory of by-gone days. Every manufacturer is trying to individualize his product. He is trying to differentiate it from the rest."

Merciful heavens. Yes.

And—

"In fact, our new carton and label plant in Chicago is our answer to the call of a package age."

The above comments from the announcement of a large carton and paper cap manufacturer, rapturously describing the new plant.

Twenty-five acres of floor space consecrated to the preparation of the fool decorations to be wrapped around our prunes, soda crackers and pickles.

Op with the puffed-up prune, and the prophylactic door knob!

Let package joy be unbridled!

Not content with gradually pushing up the prices from pecks to pounds and ounces in food stuffs, the merry manufacturer is now taking large gobs of red ink announce

that electric light sockets are to be cartoned.

All of which tom-foolery keeps the newspapers guessing where the next quire of paper is coming from, and what the autocrat at the mill will say it's worth.

And it keeps Mr. and Mrs. Consumer growling about food prices, and hunting for the morsel of food in the wilderness of paper wrappers.

Yes, we are an advocate of universal disarmament, provided it begins with our American crop of thieves, thugs and holdup men.

Some men are inveterate jokers, which leads on to infer that they are born-jokes.

"Marriage is a game of give and take", says a model wife. There being no model husbands, we are unable to record their views.

One of the best forms of life insurance is the use of a tooth brush morning, noon and night.

A woman who nags should never complain when her husband scolds.

Sap and Salt

By BERT MOSES.

The best time to say "No" is at the start.

Nature poets don't have much to say about poison ivy.

People you hate are often people you have double-crossed.

The fear of being laughed at has kept many a man from becoming famous.

Just about the time you get a business going the fool lawmakers put things on the bum.

Hez Heck says: "So long as men prefer to have women display legs rather than learning, the legs will remain on exhibition."

Ready to Live

I'm toil-inured,
I'm life-insured;
I've done the best I knew
To "put my house in order,"

And all, my love, for you,
Now, since I've "made our living"
By struggle and by strife,
Let you and I together
Proceed to have our life!

Sometimes, in spite
Of faith, the fight
Seemed bitter past all hope.
Sometimes in utter darkness
I've been compelled to grope.

But day wiped out each night-time,
All needed comfort giving.
Now that the strain is over,
Let's do a little living!

Let's drift about
The world, and scout
For boons in youth-time yearned for
Let's make the means I've garnered
Produce what it was earned for.
The best is all before us
And calling us, my wife!
I've sought and won your "living"—
Come, now, and claim your life!
—Strickland Gillilan in Farm Life

Paying for the Home

"Up to two years ago my money all went to doctors and medicine for my stomach trouble. I was constantly filled with gas and no medicine helped me permanently until I tried a bottle of Mayr's Wonderful Remedy at that time with excellent results. Now I am using my money in paying for a home." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at Druggists everywhere.—(Advertisement)

LETTERS TO FORM
BASIS OF A BOOK

Charles Swem, President Wilson's
Secretary, Will Probably Publish an Interesting Volume

HIS 8 YEARS EXPERIENCE

Wilson's Letters During Critical
Period May be Used by Author
With Their Explanations

Washington, March 1.—When Charles Swem, President Wilson's stenographer, finally publishes his book on an eight years' association with the man most prominent in the world's eye during that time, an intimate, personal history of the World War, its causes and its effect will be added to the world's literature.

That such a book will eventually be published has been admitted by the quietly efficient master of the curleques of shorthand, but he very definitely stated that no such book would appear upon the market for several years and until all possible objection of President Wilson has been obviated.

Publishers have not been slow to realize the importance of Swem's personal acquaintance with the President and have made flattering offers. Even the compilation of the letters, which the President wrote during the eventful days of 1917 and 1918 in book form, with a bit of explanation by Swem about the circumstances which called for the letters would be a most valuable commentary on actions taken by the administration which are now little understood by the public.

In the mass of material, which Swem is now packing up for his departure about March 1 for Chicago, where he will take up his old position with the Gregg Publishing

Company, which he held before he became the President's stenographer, is a stack of notebooks about three feet high containing practically all the correspondence of President Wilson dictated for the past eight years. These will form the basis for Swem's book when he finally decides to give his reminiscences to the world.

GROWING IN INTEREST

Revival meetings are still in progress at the Church of God at the corner of Ninth and Oliver streets. Samuel Ford is in charge of the services, which will be held each evening of this week. The meetings are growing in interest and attendance.

BOXING BOARD IS STRENUOUS LIFE

Commissioners Who Govern Boxing Contests Have Many Things Come up Before Them Daily

FOOLISH QUESTIONS ASKED

Often Times Called Upon to do Things Outside of Their Line—is 12 Hour a Day Job

By HENRY L. FARRELL

New York, March 1.—It's a soft life for the boxing commission. Yes—everyone thinks so but the commissioners.

Good state money is paid out in large gobs to the men who see that tinned boxers and their sometimes tinned managers walk straight.

This is a twelve-hour day job, however. According to Commissioner Walter Hooke, Hooke is the official chair warmer of the commission being around the handsomely fitted quarters most of the time.

"We are supposed to know everything about boxing and do everything connected with boxing," Hooke said. "Someone called up a few minutes ago and wanted to know how many minutes the second round had gone when Bob Fitzsimmons knocked out Tom Sharkey at Coney Island. Another lady wanted to know why they used only three strands of rope around the ring."

Hundreds of calls come to the commissioners asking for assurance that it would be perfectly safe for a woman to attend the boxing shows. Some of them have heard such terrible things about "prize fights."

Hardly a minute in the day but what the mahogany benches in the waiting room are occupied with battered faced, tin-eared croups of high financiers. Some of them are looking for licenses opening the doors to prosperity, others are there to complain.

One little bantam recently wanted the commission to collect six dollars

that a former manager had owed him for four years.

"What was the six dollars?" he was asked.

"My cut of de purse," he answered.

"What do you get now for boxing?"

"Oh, I wuz draggin' down about a thousand for awhile but things is kinda slack since the blue-lawyers cut the ticket prices. I ain't doin' nothin' right now and there ain't no union wages fur that."

Then there are the peeved fans.

They buy tickets for a good seat. They get a bad one and they want the commission to get their money back or suspend the club. There are the fans who bet three dollars on a boy who lost a "bum" decision and they want the commission to have the referee and the judges shot at sunrise.

The arenas are too cold for some and stifling hot for others. The commission should attend to those things. The light is too poor for some to see, it is blinding in its glare for others.

Then there are the friends who have friends that have a relative who wants some kind of a job with the commission.

"He'd like to become a referee. That a good job with little work and big pay, isn't it?" one of these pluggers, plugged for a friend recently.

"Has he had any experience?"

"Well, not exactly, but he's young and ambitious and picks up things awfully quick."

The commissioner might have told him that it wasn't the duty of referees to pick up things in the ring but he didn't.

WEBB GIRLS WIN

The Webb girls' basketball team journeyed to Carthage Saturday night and had a game with the Carthage girls' team on the latter's floor, winning by the score of five to three.

ORANGE TEAM WINS

The Orange basketball team was victorious last evening when they met the Everton team on the latter's floor. The final score was 29 to 13.

PRICES REDUCED ON BATHING SUITS

Leading Sporting Goods State However no Cuts Will be Made in Other Sport Goods

FEW INCREASES HOWEVER

No Drop in Wool Uniforms as Manufacturers Were Forced to Buy Late Last Summer

By HENRY L. FARRELL

New York, Mar. 1.—If you're a "water-dog" you can have fun next summer at bargain prices.

Otherwise it will cost you just as much to play as it did at last year's high prices. Leading sporting goods manufacturers here say that swimming suits and paraphernalia will be from 25 to 40 percent cheaper, but no cuts will be made in the price of tennis, golf or baseball equipment. Very few increases in prices will be made, however.

Tennis equipment remains about the same price. Balls will still be sold for sixty cents and a good racquet can be bought for \$15. Nets, posts, reels tapes, etc. remain at the same price.

The difficulty in securing seasoned ash and the high cost of material for strings is keeping the price of racquets up, they say. Ash has jumped thirty percent in price and the price of "gut" has not only mounted in the same proportion, but the packers are unwilling to handle it.

In pointing out the difficulties encountered in manufacturing racquets, one big dealer called attention to something not generally known to the lay player, that only "gut" from grass fed lamb could be used. The product from alkaline fed animals is too rough, he said.

Golf equipment remains about the same price also. Some of the finest clubs made from hickory have jumped one dollar but the ordinary "sticks" remain the same as last year as also do balls at one dollar each.

Baseball equipment has not increased in price. The best balls will sell for \$2.50, a good glove can be purchased for \$6.00 and bats run from fifty cents up mostly up.

Despite the pronounced drop in the wool market, uniforms will be no cheaper as the manufacturers were forced to buy their materials late last summer and during the fall.

Sweaters, woolen caps, jerseys and stockings, however are down forty percent. Sweaters that sold last season for \$25 are now available for \$15 and cheaper in some cases.

Swimming suits alone on the list will be cheaper. Materials were bought after the woolen market dropped and the outfits that cost \$10 last summer can be bought this summer for around \$6.

"Possibly this may not be believed in some circles", one of the manufacturers said, "but we are selling everything on a very close margin and have been slow in raising prices because we do not want to discourage sports by prices that reduce the number of participants. It is obvious that our profits will be the same with large sales at smaller profits than with few sales at larger profits and we can help to keep the game going, which, of course, furnishes the demand for our goods."

LOSES HARD FOUGHT GAME

Manilla Drops Basketball Contest to Connersville High School

The Manilla high school lost a hardfought game Saturday night when they played at Connersville, the home team winning 27 to 20. Manilla worked hard all of the way through and in the first half played on even terms with Connersville, having the score tied at 12 points. In the last half Connersville put up a strong defense and the Manilla team could not effectively penetrate it. It was the last game for each team before the tournament. Connersville plays in Richmond and Manilla will come here, they have a good chance of being runners up in the final game. Connersville has a fair record this year, having won 16 out of 25 games.

CARTHAGE HIGH NOSED OUT

Loses to Fortville on Home Floor by Score of 27 to 24

The Fortville high school basketball team won a close margin Saturday night from the Carthage team

at Carthage, 27 to 24. Fortville has a strong team and a week ago was the winner of the county honors in the tournament held at Greenfield. Saturday night Carthage seemed to be off form in hitting the basket; having many more chances than Fortville. The first half ended 16 to 12 in the visitors favor. In the first ten minutes of play Fortville ran the score up to 12 points, holding Carthage to 2.

The Moscow Independents play the Carthage "Yankee Five" at Carthage tonight with a curtain raiser between the Carthage Reserves and probably the Westland Independents.

PRINCESS
THURSDAY AND FRIDAY
ADOLPH ZUKOR presents
"THE COPPERHEAD"
WITH **LIONEL BARRYMORE**
A Paramount Artcraft Picture
"PATHE NEWS"

Great Crowds Wept and Cheered

Mighty Moments!
The "Copperhead's" oath to President Lincoln.
His secret intrigues with foes of the Union.
His fight in the clash of "Copperheads" and "Yanks."
His false imprisonment for murder.
His sacrifice when spurned by his wife and soldier son.
The inspiring wonderful end!

When Lionel Barrymore stirred their souls with the unforgettable scenes of "The Copperhead" on the stage.

Now it is on the Screen

The story of a patriot who served in disgrace when he could have served with honor—Gave more than life for those who called him traitor, for Lincoln who called him "friend."

A whole town built for the stirring scenes of love and conflict—a picture more impressive than the play—Thousands of men and women in the cast.

FROM THE GREAT PLAY BY AUGUSTUS THOMAS

served for the members and their husbands.

The meeting of the Band of Workers of the First Presbyterian church which was to have been held tomorrow afternoon at the home of Mrs. Helen Pierson, has been postponed until Wednesday, March 16, on account of the death of Mrs. Halbert Brown.

The Woman's Missionary society of the Little Flatrock Christian church will meet in regular session Thursday afternoon in the Sunday school room of the church. Mrs. Alta Smith will be the leader and an interesting program has been prepared. All members are urged to attend this meeting.

Mrs. Charles H. Brown was delightfully surprised Sunday at her home in West Fourth street, by a number of her friends, honoring her birthday anniversary. Delicious repasts were served at the noon hour and in the evening. Those enjoying the day with Mrs. Brown were Mr. and Mrs. James Dill, Mr. and Mrs. Norm Norris and Mr. and Mrs. Will O. Feudner.

"Old Fashioned Women Writers" was the subject of Mrs. Demarchus Brown's lecture before the members of the Monday Circle yesterday afternoon, when the ladies were entertained at the home of Mrs. Ralph Payne in North Harrison street. Among the prominent women writers Mrs. Brown discussed were Margaret Fuller, Mary Southworth, Alice and Phoebe Carey and Harriet Beecher Stowe.

she discussed the period when women entered the literary field and their advancement in this work. In talking of Margaret Fuller, Mrs. Brown stated she was the greatest woman critic of her time and also might be said that she is the greatest critic of all time. She took up the novels of Mary Southworth and discussed her from that point of view. She described the life of Alice and Phoebe Carey while they were living in Cincinnati and their later life as residents of New York. She also told of some of their novels. Mrs. Brown brought out many interesting facts in the life of Harriet Beecher Stowe when she briefly reviewed her book, "Uncle Tom's Cabin".

Following the lecture Mrs. Orlis Vandiver of Franklin sang a group of songs which were highly praised and entertaining. Delicious refreshments were served at the close of the meeting.

SEASON TICKETS ARE SELLING FAST

Continued from Page One
housing conditions are not as complicated. It was stated today that practically every team had been assigned.

It was pointed out that the Windsor hotel would accommodate 9 teams, and that other places would take a few. Some of the teams in the county would not remain over night and will not have to be placed in hotels.

With the local hotels crowded, the basketball fans accompanying the teams will probably face difficulties in finding rooms to remain over night, but most of the towns represented here are not so far away but what round trips can be made daily in machines.

All teams in the county are in strict training this week, with bed hours assigned and menus prescribed by the coaches.

In the list of the drawings, in which Manila and Carthage each have a good chance of reaching the finals, these two towns are each planning on a victory over the other. In the tournament held here a few weeks ago last Saturday, Carthage lost to Manila by a few points and they will attempt to turn the tables in the game here during the tournament.

It is generally acknowledged that one of the most decisive games of the tourney will be played on Friday night at 8:30 o'clock when the Milroy and Rushville teams will clash. The winner of this contest will most likely figure in the final game.

SMALLPOX DELAYS ALVEA CASE TODAY

Continued from Page One
Judge Gause stated that he wanted the case tried soon and because the man would not be out of quarantine for two or more weeks, placed the case on trial for April 6.

The attorneys for the defense also filed affidavits setting out the fact that they were not aware of the fact that the main witness was quarantined until four o'clock yesterday afternoon, which was after the other arguments and motions had been heard.

Alvea is the last of the Demaree gang that is to be tried on the conspiracy charge. The defendants all resided in Greensburg and the expense of trying some other county's criminals has fallen upon Rush county.

This case alone has gone deep into the cost column. Today the 30 jurors as well as the witnesses, all filed their bill with the county clerk. Two men, Boaz and Jesse Demaree, convicted on the same charge, who are serving sentences in Michigan City, were brought here Sunday to serve as witnesses and the added expense was \$40, including round trip fares for three people, and this expense will again be incurred when the case is ready for trial in April.

ASSESSORS FIX SCHEDULE

Obtain Supplies and Prepare to Begin Work Wednesday

Township assessors and deputies met today and agreed on a schedule of valuations for personal property to be assessed for taxation purposes. They also obtained their supplies and were ready to begin work Wednesday.

The assessors were in conference most of the day and did not adjourn until this afternoon. They took up each one of the items on the personal property lost and debated it before agreeing on a general valuation.

ELECTION COSTS HELD AS MENACE

Senate Committee Reports Two Major Parties Spent \$10,338,509.92 Last Campaign

OTHER PARTIES NOT COUNTED

Study of Problem of Control of Campaign Expenditures is Urged Upon Congress

(By United Press)

Washington, Mar. 1.—The election of Harding and Coolidge and the republican congress last November, cost \$8,100,739.21, the senate committee on expenditures reported today. The defeated democrats' expenditures were \$2,237,770.71.

The sum named by the committee the nearest possible approximate of the amount, is \$10,338,509.92. This is not all, the committee said, as it has taken no account of the money used by the socialists, the farm labor party or the non-partisan league. Neither does it include any money raised or spent locally and not reported to the national or state treasury of the two major parties.

"This huge campaign expenditures constitutes a menace to the nation which ought to be improved by the constitutional administration if necessary," the report said.

Study of the problem of control of campaign expenditures is urged upon congress through the commit-

tee made no recommendation as to terms of such legislation. The report is a sequel to the long investigation conducted by the committee before and after Governor Cox declared certain interests in the republican party had raised a "slush fund" of \$15,000,000.

The committee made no reference to the Cox charges. The report was compiled from statistics and consisted of 22 big volumes of testimony.

MAKES DETERMINED FIGHT

Washington, March 1.—Champ Clark, veteran democrat leader of the house, is making a determined fight against death, the odds being against him, his physicians announced today. They stated that they had almost abandoned hopes for his recovery but stated he has a fighting chance. Death is expected before Clark's services in the congress ends on Friday. His condition was reported shortly before noon to be extremely critical by his personal physician. He rallied slightly from the sinking spell last night but it has been necessary to administer drugs to relieve him of his sufferings.

ALLIES REFUSE TO HEAR EXPERTS

Continued from Page One

Lloyd George said Germany appeared to completely misunderstand the realities of the situation. The allies already have agreed that such a proposal is already unacceptable. It was announced the allies will meet the German delegates again tomorrow.

URGES EQUALITY FOR TWO NATIONS

Continued from Page One
tion of the treatment of Japanese in the western states, the speaker advocated exclusion of immigrants on a moral and educational basis, rather than upon race. He asserted that if the immigrant were required to be able to read and write English before he is admitted, that he may readily gain the American viewpoint, ideas and ideals.

Dr. Minakuchi declared the prejudice against the Japanese in the western states can be counteracted by improving them and Americanizing them. The speaker outlined what had been done on the Pacific coast, pointing out that in Seattle alone 100 Japanese have subscribed \$15,000 for that purpose. He stated Americanization of the 17,000 Japanese in Montana and Washington and 8,000 in Idaho and Oregon had already been started and that \$30,000 would be spent in the work this year. A plan is now being devised, he asserted, to care for the 78,600 Japanese in California.

Dr. Minakuchi's address was scholarly and well delivered and made a profound impression on the small audience. His enunciation was good although occasionally he was difficult to understand. Dr. Minakuchi came here from Chicago where he addressed the Sunday evening club day before yesterday.

He was delighted to know that he was in the home of Senator James Watson because he was on the chautauqua platform with the Indiana senator one season. When introduced to Jess Pugh, Dr. Minakuchi recalled meeting him on a train six years ago.

Don't Burn Good
Fuel in a Poor
Stove.

TAKE

PEPSINCO

It's a useless waste of good fuel and needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness, if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment; if your food does you no good; if food distresses, rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEPSINCO.

Ask your druggist—he sells and recommends Pepsinco.

After you eat—always use
EATONIC
FOR YOUR STOMACH'S SAKE

—one or two tablets—eat like candy. Instantly relieves Heartburn, Bloating, Gassy Feeling. Stops indigestion, food souring, repeating, headache and the many miseries caused by

Acid-Stomach

EATONIC is the best remedy, it takes the harmful acids and gases right out of the body and, of course, you get well. Tens of thousands wonderfully benefited. Guaranteed to satisfy or money refunded by your own druggist. Cost a trifle. Please try it!

Time your shave

Does it require fifteen minutes or — three

The auto Strop Razor strops, shaves and cleans without removing a single part.

Think what this means! A blade that is always ready—stropped automatically in a few seconds—then a cool, clean shave such as only a freshly stropped blade can give.

Finally the razor is rinsed off and wiped dry without a part removed. That's razor efficiency—saving blades, saving time, and making the shave a pleasure.

Auto-Strop Razor Sharpens Itself

BOTH BRANCHES WORK WITH SPEED

Outlook is no Important Bills Will be Left on Desks of Legislators at Final Adjournment

BLUE SKY LAW PASSED

Evident More Harmony Than Ever Before Exists Among Republican Members in Legislature

Indianapolis, Ind., Mar. 1.—With the final adjournment of the Legislature in sight, both branches are working with speed and efficiency. Owing to the fact that business has been disposed of more rapidly than ever before, the outlook is that there will be no important measures on the desk of either of the presiding officers by the last of this week. The few administration bills will be disposed of within the next three or four days. It happens that there are not many measures of this character but what there are may be regarded as important to the people generally.

The amended blue sky law has passed the Senate and will be ready for Governor McCray's signature within the next day or two. This bill strengthens the law enacted two years ago to give the state control over the issuing of stocks and bonds. It is a measure of general importance in that it protects the buyers of stocks from unscrupulous jobbers and promoters.

Governor McCray has on his desk the ten proposed amendments to the Constitution which were started in the 1919 session and which probably will be submitted to the people at a special election next June. These amendments will change the Constitution in a number of important particulars and this is expected to put and end to the demand for a constitutional convention and thereby save the state a million dollars.

The House has passed the bill recommended by Governor McCray to remove the State Reformatory from Jeffersonville to the penal farm in Putnam County. This reform has been advocated for the last four years and is made possible by the present legislature. The reformatory grounds at Jeffersonville will be sold at a large sum which will enable the state to proceed with the erection of a modern reformatory. Governor McCray is confident that the reformatory and state penal farm can be operated at a greatly reduced cost to the people.

The Governor has signed the general appropriation bill and the specific appropriations bill will be signed by him before the last of this week. The early passage of these two measures is another accomplishment which the Governor and the party leaders are pointing to with much pride. In former years these appropriation bills have been held up until the last hour of the session and have been subjected to log-rolling which has cost the state vast sums.

Senator Estes Duncan, chairman of the senate committee on finance, says that the specific appropriation bill contains only such appropriations as are necessary for improvements and the inauguration of a required building program at the state institutions. The war, it will be recalled put an end to the building program at all institutions and it is necessary to make improvements and to begin the erection of some buildings in order to take care of the state's unfortunates. The specific appropriation bill was kept to as low a point as possible and Senator Duncan says that it meets with the approval of the superintendents of the institutions who were brought to realize that the state cannot, at this time, make all of the improvements they require.

The House has passed two bills of general interest. One of them will enable cities in the first, second, third and fourth classes to establish what is known as the city plan of government. Another bill permits the same cities to establish district or zones for residential and factory sections. These two bills will enable the cities of Indiana to develop along better lines in that it will be possible to have the factories placed

DECEASED PHYSICIAN BORN IN THIS COUNTY

Dr. J. S. Rice, Who Studied Extensively Abroad, Expires at His Home in Laurel

BORN, REARED NEAR MILROY

Dr. J. S. Rice, a well known physician of Laurel, died suddenly Sunday afternoon at his home in that place, death being caused from an attack of heart trouble. Dr. Rice was a native of Rush county, having been born 75 years ago near Milroy, where he was reared.

His home had been in Laurel for many years, where he was engaged in the active practice of medicine. Several years ago he was in business in Connersville, where he specialized in ailments of the eye, but was compelled to seek a change in the country on account of poor health.

Dr. Rice was recognized as being one of the most noted diagnosticians in this part of the state, having graduated from Ann Arbor, with post graduate work in dentistry in a London, England university, and with a surgery course in Heidelberg, Germany. Before returning to America, Dr. Rice engaged in practice in Australia. His travels and education proved to be a benefit to his profession, and his death came as a shock to his community and all who were acquainted with him.

He is survived by a widow and one son, J. S. Rice, Jr., of Michigan. Funeral services were held this afternoon at the Laurel church with interment in a cemetery near that place.

WANDERER AGAIN ON TRIAL FOR MURDER

Ex-Army Lieutenant Now Serving Sentence For Murder of Wife Again on Trial

KILLED "RAGGED STRANGER"

(By United Press)
Chicago, Mar. 1.—Carl Wanderer, ex-army lieutenant, serving a 25-year sentence in Joliet penitentiary for the murder of his wife, went on trial for murder of the "ragged stranger" here today.

Wanderer is alleged to have hired the stranger whose body was never positively identified, to hold-up his wife and himself. Both the stranger and the wife were shot during the alleged hold-up by Wanderer, the authorities claimed.

The state will base its case on the alleged confession made by Wanderer, following his arrest. Wanderer repudiated this confession at the trial, which resulted in conviction for murder of his wife.

The prosecution will demand the death penalty. Wanderer expresses the belief that he will get off even more easily in the second trial than he did in the first.

The finding of two revolvers in Wanderer's apartment, both identified as belonging to him, led to his arrest by the police. Wanderer told the authorities the stranger attempted to hold him up in the vestibule of the flat building. Wanderer shot the stranger after the alleged hold-up man had killed Mrs. Wanderer, the prisoner claimed.

HALIFAX, Nova Scotia.—During the year 1920 over 600 immigrants were brought by the Provincial Department of Immigration and Industries to Nova Scotia and settled either on the land or in industrial work.

in one section and the residents in another. The bills also will give the cities a larger measure of control over the erection of all buildings, which is a reform that they have demanded for several years.

As the session nears its close, it is evident that more harmony than ever before exists among the republican members in both the house and senate, which has enabled them to dispose of business rapidly and without friction.

WOULD REIMBURSE LIQUOR INTERESTS

Treasury Adams to Give Dealers Five Times Value For Loss of Properties by Prohibition

CHARGE MADE BY SENATOR

Senator Frelinghuysen Introduces Resolution Calling Upon Secretary to Furnish Facts

Washington, March 1.—Without the slightest authority of law the Secretary of the Treasury is attempting to "put over" on the people of the country an arbitrary ruling of his own whereby the liquor interests will be paid four billions of dollars in compensation for the business which was made illegal by Congress and three-fourths of the legislatures of the states.

This charge is made by Senator J. S. Frelinghuysen of New Jersey, and is substantiated by Senator Reed Smoot, of Utah, who in a resolution passed by the Senate has called upon Secretary Houston to furnish the facts. Through this resolution was adopted a month ago, no information has as yet been forthcoming. Yet, the two Senators have in their possession a copy of the order granting a refund applies to the taxes as of 1919 before the prohibition act went into effect.

"I am informed," said Senator Frelinghuysen, "that the exemptions which will be granted and which the Treasury will eventually be called upon to pay amount to four billions of dollars. That is the information which comes to me under a ruling which has been made by the Internal Revenue section of the Treasury Department.

"Exemptions of taxes are being granted by the Internal Revenue Bureau to brewers, distillers and liquor dealers which in some cases amount to five times the sum allowed to other corporations and individuals for good will. In other words, Congress will have to face an appropriation for exemptions amounting to \$4,000,000,000 to be returned to distillers, liquor dealers and saloon keepers of the country.

"I think it is the duty of the Finance Committee of the Senate to call the chief of the Bureau of Internal Revenue before it and ascertain whether, under the rulings of that Bureau, the Treasury is going to return these amounts to the liquor dealers and the reason which they give for such action.

"In most instances, the property owner, the taxpayer, is compelled to sue for a return, but in this case, through a simple ruling, the Treasury is going to be looted to the extent of at least \$4,000,000,000. I think it is time Congress should ascertain all the facts and stop this costly practice."

Under the ruling the Treasury refunds five times the actual value of the property and does it under the excuse that the "good will" of the booze dealers was worth that much.

EXPOSURE ACHES—RHEUMATIC PAINS

Sloan's Liniment, kept handy, takes the fight out of them

SLUSHING around in the wet and then—the dreaded rheumatic twinge! But not for long when Sloan's Liniment is put on the job!

Pains, strains, sprains—how soon this old family friend penetrates without rubbing and helps drive 'em away! And how cleanly, too—no muck, no bother, no stained skin or clogged pores. Muscles limber up, lumbago, sciatica, neuralgia, backache are promptly relieved. Keep a bottle handy. Get one today if you've run out of Sloan's Liniment, it's so warming.

All druggists—35c, 70c, \$1.40. The largest bottle holds six times as much as the smallest.
